

Raptor Live Centers Standard and Tracer Point

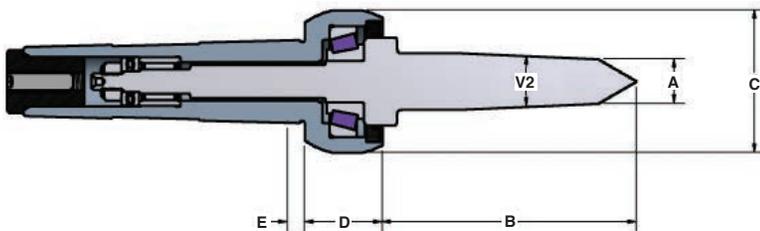

- Accuracy guaranteed to $\pm .00005$
- Tapered and ball bearings.
- Points are through-hardened to 61-63 Rc
- Riten full service and repair

Riten's Raptor Live Centers are designed specifically for gear hobbing, cutting and grinding. They are an ideal replacement for foreign-made "Gepys", with better concentricity, lower cost of ownership, and greatly reduced lead times. Repairs are made in the U.S., with turnaround times as little as two weeks.

STANDARD POINT - MORSE TAPER							
Model	Taper	A	B	C	D	E	W. P. Weight
42603	3	5/8	19/32	15/8	29/32	3/16	250
42604	4	7/8	19/16	2	13/32	5/16	250

TRACER POINT - MORSE TAPER							
Model	Taper	A	B	C	D	E	V2 Weight
42903	3	1/2	27/8	15/8	29/32	3/16	5° 250
42904	4	23/32	31/16	2	13/32	5/16	5° 250
