Imperial Dead Centers

Large Carbide Point

Increased Center Hole Range

- Accuracy guaranteed to ± .00005.
- Covers the widest range of center hole sizes.
- Eliminates the need for special centers.
- Also available in other tapers.

Imperial Carbide Centers cover the requirements for a wide range of workpiece center holes. They reduce costs by eliminating the need for special dead centers. Knockout ends are hardened on carbide tipped dead centers. Applying a Moly EP632 grease on the point will reduce friction and wear.
